DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-25, drawn to a method for disseminating information, classified in class 379, subclass 67.1.
 - II. Claims 26-42, drawn to a method for processing data, classified in class 379, subclass 93.01.
 - III. Claims 43-56, drawn to a method for monitoring the condition of one or more individuals by a health care worker, classified in class 379, subclass 106.02.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions I, II and II are distinct from each other, for example, Group I directs to disseminate information from a sender to a recipient, Group II directs to process data by providing a user device being communicatively linked to a management surface interface via a device adapter, and Group III directs to a health monitoring system for monitoring an individual by a health care worker.

Art Unit: 2643

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
